

Graphite Titanium by BaBylissPRO™ styling tools bring the artistry of hair styling to a whole new level.

With its' **GXT Synergy Performance™**, the distinctive properties of **Graphite + Titanium** unite to deliver exceptional styling performance.

Crafted with the finest materials, functions and form, thoughtfully selected by our team of hair experts, this range of luxury tools delivers shiny, smooth, and healthy looking hair.

Our engineers have harnessed the distinctive properties of GRAPHITE + TITANIUM to create a range of professional hair tools that deliver exceptional styling results quickly, yet gently.

Formed by extreme heat and pressure deep inside the Earth's crust, graphite is a naturally-occurring form of crystalline carbon that is highly heat conductive, remarkably smooth, and durable. Polished to an incredibly sleek ultra-glide surface, graphite represents the next level in hairstyling proficiency.

Further enhanced with the latest styling innovations, Graphite Titanium by BaBylissPRO™ tools deliver THE SYNERGY OF MULTIPLE INNOVATIONS™.

EXCEPTIONAL HEAT + GLIDE + DURABILITY

Graphite + Titanium's heat conductivity accelerates heat transfer to help maintain even, stable temperatures, and excellent heat recovery for super-efficient styling results.

Graphite's extremely smooth surface delivers outstanding glide, reducing friction on the hair and making styling effortless.

Graphite + Titanium's strength delivers a styling tool that will stand up to the rigors of daily salon use, day-in day-out.

GXT SYNERGY PERFORMANCE™

GRAPHITE + TITANIUM IONIC FLAT IRONS

EXCEPTIONAL HEAT, GLIDE & DURABILITY

- CERAMIC, a natural source of far-infrared heat, provides superb styling results.
- ION GENERATOR emits millions of negative ions for smooth, shiny hair.
- CERAMIC HEATER provides instant heat-up, excellent heat stability and recovery, up to 450 °F (232 °C).
- XL PLATES style more hair, quicker.
- DIGITAL DISPLAY with 10 settings for precise heat control to suit all hair types.
- MEMORY FUNCTION reverts to the last temperature selected when the iron is powered on.
- 9-FT SWIVEL POWER CORD for professional use.
- UNIVERSAL VOLTAGE for worldwide travel.
